I'm about 6 missions in. There's nothing casual about the gameplay. Each mission is timed (1 to 2 minutes), giving you little time to look around. Tasks just involves clicking in a series of areas to produce a certain final product. Bonus items also requires that you look around the scene and find it. Obstacles (like moles) try to impede your progress. The only way to get rid of them is, you guessed it, click on it.

I was looking for a sandbox mode but can't find the option. I originally hoped this game would be some sort of cartoony sim farm, but all missions are timed leaving you little time to actually enjoy the game.

Wouldn't recommend this game.. This is a classy game that involves keeping objects in the air to put them in the right place on the level. It is a great game for at the office and having some time to play around. It is set in Venice and you put different objects through different spins and turns to get the object in its correct spot to trigger the end of the level. The graphics are basic. The gameplay is simple and easy to learn. A child would have alot of fun with this game. I highly recommend it for anyone ready for a good challenge and a fun time. This is a ideal game for any casual gamer!. Doesnt work for Rift Users, dont fall for it , do not buy it on Steam Store, patch still isn't out or fixed it at all :/

[UPDATED]

Since the games major update for Rift and touch support i have happily been playing!, all works perfectly, can see what the vive users have been saying aha this is an absolute realistic and amazing tool , one of the most engaging experiences on VR Yet!, very keen to see where it heads. :P. dis good game. At the time of this review this game in unplayable with a keyboard and mouse so if you do not have a controller for you PC this isn't going to work for you.

With that being said this game is insanely fun and just as addictive. The mechanics get some serious getting used to but once you do it feels very natural. It doesn't have online multiplayer at this point but with a lack of couch co-op in general on the PC this is one that shines in that sense.

I find myself playing this game at least once a day and challenges updated daily I will continue to do so.. What a horrible unfriendly program. Not recommended.. Maybe I'm just bad at this game, but It seems like the controls could use improvement. Left/Right movement is with a/d but attack is on x, and with the spacebar needed for jumping, this leads to an incredibly awkward hand position. It's also a naturally challenging game. You can die in one hit, and enemies take multiple hits to destroy if you can't jump on them. Your character also has a little lag when you land from a jump, which takes some time to get used to and stops your momentum. I didn't get very far into the game, but I would recommend it to anyone who wants the challenge.

---

Funny game:

#Vodka #Kalashnikov #Kalinka #100% achievements in less than half hour

Bad game:

#bleeding eyes #no configuration #annoying music, only one good track (first one) #f\*\*\*ing short #additional 2h needed to gell all cards

Good game:

#you can kill Hitler everyday before going to bed #Illuminati #HL3/Steam sale/Gabe references #Cthulhu

I have no idea how to rate it. Vodka/10 ? My eyes hurt/10 ?

Just buy it in 75% sale and enjoy this "experience".. Lots of optimization issues initially, but runs pretty smoothly now.

Longtime player of this game, dating back to its launch. Very fun game with lots of card variety. The open library that is your deck creates an additional layer of strategy. Luck is still a component, but there is a great deal of tactical depth to deck-building.

Definitely recommend giving this a try if you like an interesting mix of tactics and deck-building.. Great game to spend a rainy day at home... amazing art and gameplay! I recomend!!. My kids like this. I wanted them to play Kerbal but this works.. I have made a video review of this game:

<https://www.youtube.com/watch?v=xYXJ2E8Z26E>

Bulletpoints:

Like -

Tons of skills

Very refined game

Nice graphics

Huge amount of enemy variety

Dislike -

Little story exposition

somewhat stale gameplay

sound loops are boring

Rating: 5/10

please leave a comment , like and subscribe so i know what i can do better next time.. does not look like the pictures showin here after i installed it

this program does not uninstall very clean it leaves traces that you have to delete manully

. Interesting idea.
